

## Notes from the President

*Jiin Wen*

Greetings, GISMO members. Meet the Board of Directors for 2022-2024. We are all very excited to continue to serve the GISMO community. We are here to provide some much needed **TLC** to the GISMO membership.

We are launching **TLC 2022**:

- 1) Tracking the **Trailblazing and Transformative** innovations and best practices from incubators, private sectors, government agencies and nonprofits through our virtual talks/presentations;
- 2) Laying down the **Leadership** path for students and young professionals through mentorship and networking events;
- 3) Continue to expand our **Collaboration** with City agencies, and extend our conversations to State, Regional and Federal level organizations.

Keep an eye out for the calendar invites throughout the year.

Our founder, Jack Eichenbaum, after thirty years of service has stepped down from the Board of Directors. Effective January 1, 2022, the Board is honored to have Jack as our first President Emeritus. No worries, he promised to continue to share his wisdom and provide support.

Lastly, it is with great sadness I am sharing the passing of Lenny Naphtali, a founding member of GISMO, and husband of Zvia Naphtali also a founding GISMO member. Lenny passed away on February 2 in Tel Aviv. We send our deepest condolences to Zvia and the Naphtali family.
